EXCURSION TO PLATTSBURGH.—We learn that the Eagle Base Ball Club accompanied by the St. Albans Brigade Band and a number of citizens of this place, will take an excursion trip to Plattsburgh on Wednesday next, July 15th on the new steamer, where the "Eagles" will play a "friendly game" with the McDonough Base Ball Club of Plattsburgh. Arrangements have been made to carry all who go at half fare on the boat, which will leave St. Albans Bay at 7 o'clock a. m., and return in the evening.

DROWNED.—Cassius M. Sowles, aged 22 years, was drowned in the lake near Doct. Martin's house on North Island, on Sunday the 11th inst. Sowles was bathing in company with Charles Miner, and as he could not swim, was told by Miner that the water was deep and that he, Sowles, must not get out of the boat. Miner swam off a short distance, looking back and not seeing Sowles, returned immediately and in time to get hold of Sowles hair, then commenced a struggle, both parties going to the bottom. It was with great effort that Miner released himself from the grasp of Sowles and saved himself. The body was soon recovered and taken to Alburgh where Sowles has friends.

THE WEATHER.—The weather for several days past has been excessively hot, the thermometer marking from 95 to 100 degrees in the shade. On Saturday we learn that several persons engaged in haying were so overcome by the heat that they had to be carried from the fields. We, however, hear of no deaths from this cause in this vicinity since that reported in the TRANSCRIPT of Saturday. The measles are prevailing extensively among children, and other diseases incident to the season are also prevalent. Rain is much needed and complaining mortals begin to talk about drouth, short crops, etc. We are having certainly a somewhat remarkable season, but it cannot be otherwise than for the best.

Despatches from all parts of the country report the heat very intense and oppressive.

Since the foregoing was put in type, we learn that Henry Tanner, a trackman in the Railroad Yard, in this village, and Peter Tatro, a Frenchman in the employ of Geo. W. Barnes, were prostrated by heat about noon to-day, but are recovering from the effects of the same.

The Amherst College Glee Club give a concert in Burlington this evening.

NEW LEGAL FIRM.—Messrs. M. J. Hill and A. G. Safford, of this place, have just formed a partnership for the practice of law, and will establish themselves in Driscoll's block, on Lake Street, as soon as their rooms are properly finished up. In the mean time they may be found in Wheeler's block, on Main Street. Both the partners are young men of ability and well read in their profession, and are well and favorably known. They will receive and receive a good business patronage. Their card may be found in our columns.

Respect to the Memory of Mr. Sawyer.

The members of the Chittenden County Bar met at the County Clerk's office in Burlington, on Saturday to pay proper respect to the memory of their deceased associate, the late Gamaliel B. Sawyer, Esq. The Chairman, Edward J. Phelps, on motion of R. H. Start, appointed a committee of three, consisting of L. B. Englesby, R. S. Taft and R. H. Start to draft a series of resolutions expressive of the sentiments of the Bar in reference to the death of Mr. Sawyer who reported as follows:

RESOLUTIONS.
Resolved, That by the death of Gamaliel B. Sawyer we have lost an associate whose intellectual culture, scholarly attainments, and varied learning commanded our respect and esteem; almost the last survivor of the able men who graced the Chittenden County Bar in its early days. We regret the severance of those personal associations which connect us with them.

Resolved, That we tender to the family and friends of the deceased our hearty sympathy in their bereavement.

Resolved, That we will attend the funeral of our late associate, wearing the customary badge mourning.

Resolved, That these Resolutions be presented to the county court at its next session with a request that they be entered on its records.

The funeral of Mr. Sawyer took place from St. Paul's Church, Sunday afternoon, the Bar attending in a body. The services were conducted by the Rector Rev. E. R. Atwill. The body was taken to Locust street Cemetery, for interment. Hon. A. L. Callin, Wm. L. Strong, E. J. Phelps, V. P. Noyes, Wm. G. Shaw and Carolus Noyes, were the pall bearers of the deceased.

A post office has been established in Essex County, N. Y., called Alden Lair, and Edward P. Williams appointed Postmaster.

KILLED BY HEAT.—The Times says that a Frenchman, recently from Plattsburgh, name unknown, while working in the hay-field of Jason Hunt in Essex, Vt., on Saturday was taken sick and died soon after from the effects of the heat and drinking too much water.

TO ENLARGE.—The Rutland Independent will appear next week in enlarged form. We congratulate it upon this evidence of appreciation by the public, and prosperity. It has been from the first a readable paper, and neatly got up, but we never liked its annual form, and are pleased that it will change. The Independent comes out for Hon. Seneca M. Dorr for Congress.

Treatment of Sunstroke.

In view of a great many deaths from sunstroke during the recent heated term, and the risks which may be run during the balance of the summer, the following extract of an article from the Philadelphia Ledger may prove useful:
In every instance where one is found fainting in the street on a hot day, the first thing is to remove the person to a cool and shady place as can be found, and if possible, to where a draft of air is blowing at the time. By-standers and more idlers should be kept from crowding around. The next is to send in all directions for a doctor or a skilled apothecary. But as it frequently happens, that neither a doctor nor an apothecary can be had in time, those who take charge of the sufferer should know how to act, for they may save his life. For their information, the following treatment is suggested: They should understand that there are two morbid conditions resulting from excessive heat. These differ somewhat in their symptoms, and require a somewhat different treatment. The first of these occurs during the hot weather, after undue exertion on the part of the person thus affected. The man is faint, perhaps unable to move, though he can generally be roused; he has a feeble pulse and a cool and moist skin. Here there is simply a loss of a nervous power, and relief is promptly afforded by removing him to a cool, shady place, applying cold water or ice to the head, and administering food and water, or other stimulant. In the other and more fatal form of this affection, a different set of symptoms show themselves. Here the patient suddenly falls to the ground, completely unconscious, his skin is pungently hot and dry, his breathing hurried, convulsions are not uncommon, and if proper treatment be not promptly resorted to, death soon takes place. In this case, also, the patient should be promptly removed to a shady and cool spot, perfectly private, so that the crowd may be kept off without fail. His clothing should be stripped off and his whole body should be rubbed with ice from head to foot, and pieces of ice should be kept under the armpits. This should be steadily persevered in till the patient is restored, or until a doctor arrives, or until it is plain the case is beyond recovery. This treatment has been found to be so eminently successful by one of our best physicians, that he feels justified in saying, from his own knowledge and observation, that if applied promptly recovery is almost certain."

An Effect of Heat.

The poet has immortalized some things that old scratch in the middle of hell is frozen.
Like a straw in water, the devil had done worse if he the earth in these hot days had chosen. Here the sun sucks the moisture from the loam, And drinking only aggravates the evil; And when we think of satan cool, at rest, — We emphatically exclaim, "The lucky devil!" A. B.

WILL EXHIBIT AT ST. ALBANS, MONDAY, JULY 27.

THIRD ANNUAL TOUR OF THIS GREAT METROPOLITAN INSTITUTION

Permanently established during the greater portion of the year in a splendid front building in the City of New York, which is well known throughout the country as the

Leading Circus of America

And which, the present season, with its NEW AND MAGNIFICENT FEATURES,

Never before represented in America, will be enabled to exhibit a variety of marvellous and exciting features, far surpassing anything hitherto witnessed on this side of the Atlantic. The public appreciation of the performance given by the New York Circus, not only in the City of New York, but also during its former numerous excursions, has stimulated the management to new exertions, and it is confidently asserted as beyond the power of contradiction, not only that the performance of the Circus during its present tour will be found to be far more given in this country.

But that the company is in all respects THE BEST IN THE WORLD!

And being an Equestrian establishment in all respects complete, many first-class artists, or so many entirely novel and strikingly effective as this. First season in America of the CAROLINE ROLLAND, the Phenomenal Equestrienne, who surpasses the most daring feats accomplished by other lady riders on a high horse without saddle or bridle. This extraordinary feat was witnessed in England, where she was, by an agent sent thither for the purpose of securing the best lady rider in Europe, and only arrived in this country in April. Her astounding performance upon a Rodeo-horse, threw into the shade all previous displays of female Equestrianism seen in the United States, and cannot be paralleled in any exhibition in Europe or America. Included in the brilliant array of

World Renowned Artists
Attached to the New York Circus will be found the names of Robert Jackson, the Great American Horse Back Rider; the Great Horse, Champion of the World; William Patton, the Intrepid Barrel Rider, with his infant son, riding the Barrel-horse Family, who have no equals in any country in the world; the School of Gymnastics; El Nino Eddie, the Boy Wonder, who although a mere child, surpasses all other difficult feats upon the Tight Rope; Herbert B. Williams, the greatest of English Clowns, engaged by London expressly for the present traveling season; together with the greatest force of Dancing Horse Back Riders, Accomplished Acrobats, Chinese Gymnasts, Content Clowns, Trick Rope Walkers, Fire Artists, Masters, Equilibrists, Voluptuous, Trapeses and Paragymnasts, Ever brought together in the country, involving a greater expenditure for salaries than is incurred by any four traveling companies, and embracing more first class artists than can be found in any Circus in the World. First season in America of Caroline Rolland.

TROUPE OF PERFORMING DOGS!

From London and Paris. The largest and best stud of beautiful and highly trained PERFORMING HORSES AND PONIES

And the most brilliant and complete arrangements to be found in Europe or America. The Programme of performances arranged for the present season will be distinguished by novelty, variety and startling merit, including many entirely new acts, never before given in this country, with others that are original with and peculiar to the New York Circus, and which are witnessed in no other establishments.
